

Polysulphide Sealant Primer

Primer used with EUNISEAL Vertiseal and Paraseal

Description

A liquid primer used in the preparation of joint surfaces prior to the use of Vertiseal and Paraseal.

Uses

Is used when preparing porous surfaces such as concrete, brickwork, stonework, asbestos and timber and non-porous surfaces such as stainless steel and ceramics .

Application

Pour a small amount of the primer into a clean container ensuring that the main container is tightly resealed. liberally apply a coat of primer with a soft brush to the required surface. allow to become tack free before installing sealants. If primer is left for more than 3 hours, re-priming is necessary.

Note: primers are solvent-based .

Surface Preparation

All surfaces must be clean, dry and free from dust, dirt, paint, loose materials, oil, grease, sealers, curing compounds, waxes and all other contaminations.

Coverage

Theoretical coverage approx. 20m² per litre.

Storage

Store under cover out of direct sunlight and Protect from extremes of temperature. In tropical climates the product must be stored in an air conditioned environment

Technical Service

The Technical Department is available to assist you in the correct use of our products and its resources are at your disposal entirely without obligation.
